

THE Steel Giant Grubber

Which has proved so successful in clearing land of lantana was introduced by the PACIFIC HARDWARE COMPANY, LIMITED, a little more than a year ago and has the endorsement of those who have used it.

The several invoices of Grubbers already received have been disposed of so promptly on arrival that they have not been advertised.

A few of the No. 2 size are now in stock and a supply of No. 1 are expected at an early date.

Any one interested in freeing his land of lantana should correspond with the

MONEY IS VANISHING Three Thousand Remain for Court.

The total expenditures from the fund for "general expenses of Supreme and Circuit courts" for the year ending June 30th, were \$31,832.16. For the month of July, according to the warrants already paid by the auditor, there has been an additional expenditure of approximately \$687. The total appropriation made by the legislature for the two years was \$26,000, and there remains but a little over \$3500 for running expenses of all the courts for the remaining eleven months of the biennial period.

If the present August term of court is to be measured by the expenditures made in the past by the second judge, the statement of Judge Gear to the grand jury yesterday that he might be compelled to stop work before the end of the term for lack of funds is probably correct. There is still to be paid the jury for the special term held by Judge Humphreys and probably other expenses in the remaining island circuits. This will leave about \$2500 for the present term of court, which is not very much more than the cost of some term held in the past by Judge Gear. If on the other hand the present term is conducted on the same lines as laid down by Judge Robinson and some of the judges in other circuits, the money still remaining in the appropriation will not only be sufficient for the August term, but also for the next term to be held here.

The trial jury and the grand jury ally necessary for the conduct of the courts, the salaries being paid out of a special appropriation. The trial jury which is composed of eighteen men sit but twenty-four days, which would run the cost to less than \$300. The grand jury with twenty-two members will hardly hold sessions more than half that time, and the expense should not greatly exceed \$500, unless there is the usual charge of \$200 or \$300 for clerk hire, which Judge Robinson has said is not authorized, but which has always been allowed by Judge Gear. The bailiffs are paid from the general appropriation, excepting Bailiff Sea, who is also acting for the Supreme Court. Interpreters, stenographers and clerks are also paid from the salary appropriation, and though there are two regular court reporters, the term has been opened by the employment of a third stenographer, who must be paid from the general fund. Miss Neumann, who occupied that position last term, was paid at the rate of \$10 per day and drew altogether about \$500. Auditor Austin said yesterday that when the appropriation was exhausted he would simply stop the issuance of warrants. He knew of no way by which the courts could be continued, unless by continuing the operation of courts; the parties to whom the money is owing going to the next legislature for reimbursement. As a matter of fact, the judges could continue to sit for the hearing of cases which do not require a jury trial, as the salary appropriation provides for stenographers, interpreters and clerks, which is all the machinery required in such cases. There are enough of these matters on the calendar to occupy all the judges for the remainder of the fiscal year, and if no solution is found to the problem those cases could be cleared and the jury trials be put over until the legislature meets in February.

Further, with a well equipped factory, wherein optical lenses of every description are ground accurately, together with the latest scientific instruments in the testing department, I am enabled to guarantee absolutely satisfactory results in every instance. The high reputation which this department has earned in the past, will be fully maintained in the future.

Very Respectfully

Central Kona FOR SALE

By order of REINNE RODANZ, Trustee, I offer for sale these certain parcels of land situate at Onouli, South Kona, Island of Hawaii, described in Royal Patent (Grant) No. 1163 to F. O. Schulze, and containing 174 acres. Royal Patent (Grant) No. 2862 to Awahua and containing 739 75-100 acres, situate at Keopuka and Onouli, Island of Hawaii.

This is a tract of land of over 918 acres, situated in the most fertile and richest portion of the Island of Hawaii. It faces the new Government road, extends to the sea, and is five minutes' walk from Kealahou Bay, by way of the old Government road which runs through the property. Portions of the land are already under cultivation.

This tract is so situated that it is about midway between Kailua and Hookea, and five miles from Napo-opo, three most important ports of the Kona district. It has sufficient elevation, running up to fourteen hundred feet, to be particularly healthful, and its soil is well adapted to the growth of sugar cane, coffee, fruits, dairying, or for the promotion of diversified farming.

Occupants of this land have easy access to several ports for export, and with the advent of the Kona Railroad, will find themselves in close communication with the thriving City of Hilo. This, of course, affords a splendid opportunity for the exporting of farm products to the California market.

With the revival of the Kona Sugar Co., considerable portions of this land can be successfully planted to sugar cane.

This is one of the most splendid opportunities for a good investment that has been put upon the market for a considerable period of time.
